| Supplemental information (continued) |
|--|
| |
| For the Health System's taxable subsidiary and activities considered UBTI, |
| income taxes are accounted for under the asset and liability method, which |
| requires the recognition of Deferred Tax Assets (DTAs) and Deferred Tax |
| Liabilities (DTLs) for the expected future tax consequences of events that |
| have been included in the consolidated financial statements. Under this |
| method, the Health System determines DTAs and DTLs on the basis of the |
| differences between the financial statement and tax bases of assets and |
| liabilities using enacted tax rates in effect for the year in which the |
| differences are expected to reverse. The effect of a change in tax rates |
| on DTAs and DTLs is recognized in results of operations in the period that |
| includes the enactment date of the rate change. |
| |
| The Health System recognizes DTAs to the extent that these assets are more |
| likely than not to be realized. In making such a determination, the Health |
| System considers all available positive and negative evidence, including |
| future reversals of existing taxable temporary differences, projected |
| future taxable income, tax-planning strategies, and results of recent |
| operations. If the Health System determines that DTAs are realizable in |
| the future in excess of their net recorded amount, the Health System would |
| make an adjustment to the DTA valuation allowance, which would reduce the |
| provision for income taxes. |
| |
| The Health System records uncertain tax positions in accordance with ASC |
| 740 on the basis of a two-step process in which (1) the Health System |
| determines whether it is more likely than not that the tax positions will |
| be sustained on the basis of the technical merits of the position and (2) |
| for those tax positions that meet the more-likely-than-not recognition |
